INFORMATION MENU (Cont. 3)

6

ENG Language selection: English or Arabic.

CALENDAR To display either the Gregorian calendar or Hijri calendar on the main screen.

TIME DI You can select either 12 hours (AM/PM) or 24 hours time format. Also, you can display time with or without seconds.

AZAN DI On the main screen, the watch displays the "Prayer Interval" (-59 to +30 minutes) before and after azan. From this screen, you can change this option, to always display "Azan time".

SETTING PRAYER ALARMS

12

Prayer alarms are useful as reminders of Iqama or prayer time. Each prayer alarm can be set to ring before or after the azan time by a fixed interval. Moreover, each alarm duration can be adjusted (in seconds), or can be turned OFF. The alarm icon  indicates that the prayer alarm is ON (for that particular azan).

Example: To set Asr prayer alarm to always ring after the azan by 10 minutes, move to Asr azan screen, then:

NOTE: In the watch default setting, each prayer alarm rings exactly at its corresponding azan time (two beeps/seconds).

1

OVERVIEW

Press  to move to next screen
 Press  to enter setting mode
 Press  to return to the previous screen*
 Press  to display the Qibla
 *Press  in main screen, to turn on the light.

SETTING COUNTRY & CITY

2

* If your country or city is not listed, refer to page 13.

NOTE: After changing the city, the watch will automatically recalculate the new time and all azan times.

INFORMATION MENU (Cont. 4)

7

TAAQWEEM The watch uses the local (or the most widely used) taqweem system in your city. As needed, other taqweem systems can be selected (see page 14).

AZAN SA Azan times can be adjusted forward or backward by a fixed number of minutes, from this screen. Note that these safety times are re-set to zero after selecting another taqweem or city.

DST SEL Daylight Saving Time (DST) selection. When DST is ON, all azan times and current time are advanced by one hour.

ALARM This is a general purpose daily alarm. Its setting is similar to that of the prayer alarms (see page 12). The  icon on the main screen, indicates that the alarm is ON.

SELECTING A NEW CITY

13

Any location around the world can be selected using latitude, longitude and GMT information. For example, the following steps show how to set the city of Corvallis, OR, in USA with:

- Latitude (44° 34' N) and Longitude (123° 16' E), and GMT -8:00:
- Press  several times until reach to **CITY SE** screen then press & hold 
 - Select "USA" then press 
 - Press  or  to choose **NEW CITY** then press 
 - Adjust latitude (44 N), press , adjust minutes (34), then press 
 - Adjust longitude (123 E), press , adjust minutes (16), and press 
 - Adjust GMT (-8:00) then press 

After above setting, this location is stored in the watch, and new time and new azan times are recalculated.

For more information, please visit: www.alfajr.com/newcity

NOTE: If azan times are not correct, check: city's coordinates, DST option, Gregorian date, and the appropriate taqweem system.

INFORMATION MENU (Cont. 5)

8

STOP-W Stop Watch with accuracy 0.1 seconds. Press  to enter and exit, press  to Start/Stop, and press  to reset to 00:00

VOLUME Two volume levels (for all alarms): 2 is High, 1 is Low, or OFF.

MY NAME You can personalize your watch by displaying any word on the main screen. The word can be at most seven characters long.

MOON AGE This screen displays the Moon age (in days and hours), where the symbol "d" indicates days and "h" indicates hours.

TAAQWEEM SELECTION

14

Your watch is already programmed to use the local (or the most widely used) taqweem system for your city. However, if you prefer to select another taqweem, follow the steps below:

- Press  several times until reach to **TAAQWEEM** screen
- Press and hold  to enter setting mode
- Use  or  to select the desired taqweem, then press  to confirm

Main Taqweem Systems:
 MUSLIM LEAGUE - EGYPT - ISNA (North America) - HANAFI (Indian sub-continent) - UMALQURA & UMALQURA 15° & 18° to modify Fajr azan Fixed 1:30 (where Isha is 1:30 after Magrib and Fajr 1:30 before Shuroq).

NOTE: To change Fajr or Isha azan calculation method, you can select **CUSTOM** taqweem.

NOTE: After re-selecting a country, the clock will be reset to use the city's default taqweem.

INFORMATION MENU

3

30 OCT This is the main screen, which displays the time, date, and next azan time. Press  to move to the following screens.

FRI This screen shows the day of the week and the Hijri Calendar. To adjust Hijri Calendar (if needed), press and hold .

QIBLA COMPASS

15

This watch is equipped with a digital compass which can be used to display Qibla and North directions, as follows:
 From main screen, press  few times until reach **QIBLA** screen then,

* To calibrate the compass, ROTATE the watch about 360° degrees, until calibration is complete (and you will hear a beep sound).

** In Makkah city, the Qibla is displayed as . Note that within Makkah city, different locations have different Qibla directions.

INFORMATION MENU (Cont. 1)

4

FAJR This screen displays Fajr azan time. Also from this screen, you can reset Fajr alarm, see page 12. In this screen, and after waiting for few seconds, the watch will display the beginning time of "the last third of the night".

SHUROQ Shuroq Time.
 Dhuhr, Asr, and Magrib azan times, then:

ISHA Isha azan time. After waiting for few seconds in this screen, the watch will display the "Midnight" time.

SETTING TIME & CALENDAR

10

To set the time and Gregorian (or Hijri) date*, press  several times to reach **TIME DATE** screen, then press  to start setting.

* From this screen, you can set the date that is displayed on the main screen. And to set the other date, see page 11.

INFORMATION MENU (Cont. 2)

5

QIBLA From this screen, you can display Qibla and North directions, and can also calibrate the Digital Compass (see page 15). To quickly display Qibla digital, press .

TIME DAT To adjust the time and Gregorian date (see page 10). Note it will adjust Hijri date, if it is displayed on the main screen.

SET SEC This screen allows you to accurately adjust the seconds. Press and hold  to enter, press  to reset seconds to 00. Seconds will start again, after press .

CITY SE From this screen you can select your city. You can also adjust the city directly from the main screen (see page 2). If your city or country is not listed, follow the steps on page 13.

SETTING HIJRI CALENDAR

11

Note that after setting the Gregorian date, the Hijri date is automatically adjusted according to the astronomical moon sighting at Makkah. But if you need to change the Hijri (or Gregorian) date* press  once to reach **MON** screen, then follow the steps below:

* You can set the date that is currently displayed on this screen. And to set the other date, see page 10.

COMPASS NOTES

16

- When using digital compass, do not get close to high magnetic fields, such as electronic devices or sound speakers, etc. In addition, compass accuracy may be affected inside concrete buildings.
- For more accurate direction, you can re-calibrate the compass (see **CALIBRA** screen on page 15). In addition, the watch will automatically prompt you to re-calibrate, after you change the city or if the watch is subjected to high magnetic field.
- The watch displays the True North (not the Magnetic North), as the watch automatically compensates for the Magnetic deviation angle.
- To quickly display Qibla direction, press & hold  from the main screen (see shortcut setting on page 9).
- Compass will stop after 30 seconds, or after press .

FREQUENTLY ASKED QUESTIONS

17

- Q:** How can I select my city if it is not listed in the watch?
A: You can set any location around the world by using the latitude and longitude coordinates (see page 13).
- Q:** Azan times are not correct. Why?
A: Make sure you have correctly set your city and the Gregorian calendar. If Azan times are shifted by one hour, make sure to correctly set the **DST** option (see page 7).
- Q:** Azan times for Fajr, Asr and/or Isha are not correct. Why?
A: There are different methods to calculate these azan times. Make sure to select a suitable taqweem system (see page 14).
- Q:** Qibla direction is not accurate. Why?
A: Need to avoid strong magnetic fields, and may need to re-calibrate the compass (see pages 15 & 16).
